# Cosmos Fundraiser - Bitcoin via Web

This document explains how to contribute Bitcoins to the Cosmos Fundraiser via the web interface.

Step 1: Open Chrome browser in Incognito mode.

We recommend Chrome or Chromium-based browsers for all contributions.

Chrome browser extensions pose a security vulnerability for the web fundraiser flow, as browser extensions can read all the contents of the web interface. However, Chrome browser extensions are not enabled by default in incognito mode. Therefore, we highly recommend that you open the browser in incognito mode.

NOTE: If you have any Chrome extensions enabled for incognito mode, you should also disable these chrome extensions.
Step 2: Go to https://fundraiser.cosmos.network

NOTE: The web interface is not yet available. The web interface will be available at https://fundraiser.cosmos.network/ by April 3rd, 2017.

You will see something like the following:

The top bar shows the progress of the fundraiser:

# of ATOM: This box shows the total number of atoms claimed so far. During the first 6 hours, the cap is hidden. If we exceed $10M of funding in the first 6 hours, we will stop the fundraiser after the hidden cap has been reached. Whether or not we reach the hidden cap, if we exceed $10M of funding in the first 6 hours, we will reveal the hidden cap. We have published a commit of the hidden cap here: https://twitter.com/jaekwon/status/846055257675218944.

**# of donations:** This box shows the total number of contributions so far.

BTC raised: This box shows the total number of bitcoins sent to the Cosmos exodus address.

ETH raised: This box shows the total number of ether sent to the Cosmos fundraiser contract.

Step 3: Click on "Donate BTC"

Click on the "Donate BTC" button.

NOTE: the ATOM/BTC rate will be set and fixed just before the fundraiser starts, so it will be different than the rate shown below.

Step 4: Write down your 12-word seed-phrase

You will be shown your secret 12-word mnemonic, or seed-phrase, which is necessary to claim your ATOMs.

ATTENTION: IF YOU FORGET THIS SEED-PHRASE, OR IF THE SEED-PHRASE GETS STOLEN, YOU WILL NOT RECEIVE ANY ATOMS. NOBODY, NOT EVEN THE FOUNDATION, WILL ASK YOU FOR YOUR SEED-PHRASE. NEVER SHARE YOUR SEED-PHRASE.

NOTE: It is **not safe** to split these 12 words into pieces and store them independently. Attackers may be able to derive your seed-phrase from just a subset of these words. In the example below, an attacker can easily steal your ATOM even if they only know the first 6 words of the seed-phrase, "wrestle ice meadow basic sing humble".

NOTE: You will need to keep the seed-phrase secure for 6 months or more. Once you contribute using your seed-phrase, you cannot change your seed-phrase. For peace of mind, please take care to store these words securely.

Copy this mnemonic and store it in a secure location. You'll need it to access your atoms later.

Write this down.

```

Step 5: Confirm your 12-word seed-phrase

Enter your 12-word seed-phrase from step 4.

ATTENTION: IF YOU FORGET THIS SEED-PHRASE, OR IF THE SEED-PHRASE GETS STOLEN, YOU WILL NOT RECEIVE ANY ATOMS. NOBODY, NOT EVEN THE FOUNDATION, WILL ASK YOU FOR YOUR SEED-PHRASE. NEVER SHARE YOUR SEED-PHRASE.
